

MINNESOTA MULTI-PURPOSE STADIUM CONSTRUCTION UPDATE

OCTOBER 24, 2014

Dear Neighbor,

The Minnesota Sports Facilities Authority (MSFA) in partnership with the Minnesota Vikings is building a new Multi-Purpose Stadium on the site of the Metrodome. Mortenson/Thor is overseeing construction and is providing neighborhood construction updates on a regular basis.

As you are aware, construction activities are ongoing. As part of those activities backfill operations will commence the evening of Sunday, October 26. Backfill means importing soil back to the project site to accomplish the final grade level for the site. Hauling will occur between 7:00 p.m. and 5:00 a.m., Sunday through Thursday for approximately one month.

We anticipate minimal disruption. Trucks will come in from Washington Avenue, take a left on 12th Avenue, then a right on 3rd Avenue; left on 11th Avenue to 5th Street and directly into the site. Upon leaving the site, trucks will take South 4th Street to 35W South. Attached is a map outlining entry and exit routes.

We will continue to update the neighborhood on the construction of the Minnesota Multi-Purpose Stadium. If you have any questions, please do not hesitate to contact me directly.

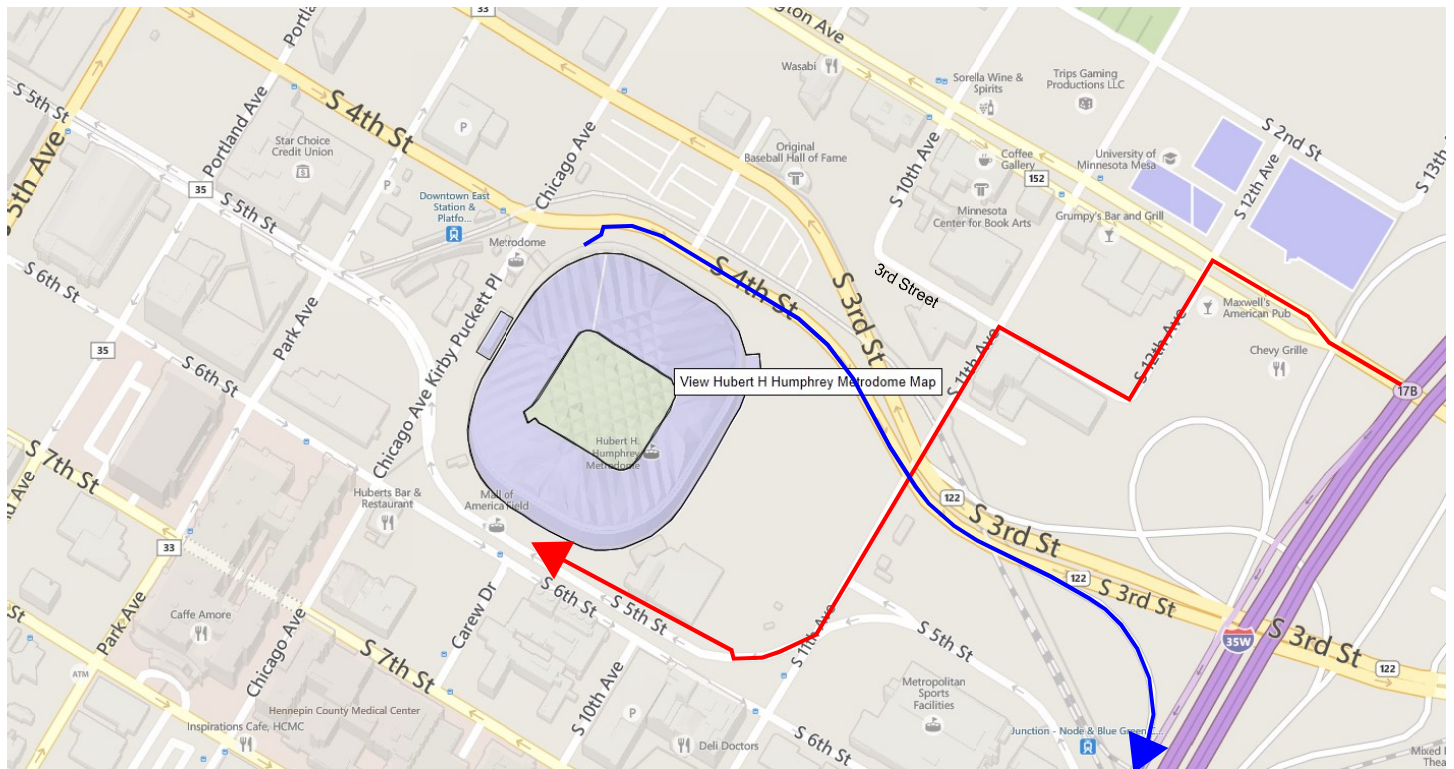

Regards,

Lynn R. Littlejohn
Director of Community Affairs
