minneapolis after the lock: unlocking new opportunities

reserve your free spot today!

thursday, january 22nd, 2015
6:00pm to 7:30pm

mill city museum - 704 south 2nd street

Are you interested in learning more about the closing of the St. Anthony Falls Upper Lock and hearing how the closure may affect the city and the river? If so, join us to hear from a panel of experts who will discuss the details of the closing and explore new possibilities for the site, the river and Minneapolis.

The lock is scheduled to be closed in June 2015. When barge traffic ends, river management practices such as dredging will change. The closure will also have an environmental and economic impact on the entire river in the city of Minneapolis. What are the opportunities that the lock closure will bring to the river and riverfront in terms of recreation and development? How does this closure fit into the Central Riverfront Master Plan? These questions and others will be addressed. Scheduled panel speakers are:

- **John Anfinson**, Chief of Resource Management for the National Parks Service
- **Nan Bischoff**, Project Manager/FERC Coordinator, the Army Corps of Engineers
- **Janna King**, President, Economic Development Services
- **Thomas Meyer**, Principal, MSR Architecture, Interiors and Urban Design

The evening will be introduced by Minneapolis Third Ward City Councilmember Jacob Frey and moderated by Kathleen Boe, Executive Director of the Minneapolis Riverfront Partnership.

This is the second in a series of Riverfront Vitality Forums conducted by the Minneapolis Riverfront Partnership.
